Dear Michael,

Following your query regarding license 50-1001523 and your post-shipment check, here are our findings.

Seventeen (17) dynamic/differential units (DMU) were received by Israeli Aircraft Industries (IAI)/Malat Division.

Fifteen (15) of them were supplied to the Israeli Air Force (IAF) for the Heron-1 UAV system. The other two items were kept in IAI/Malat's stock for future use by the IAF Heron-1 UAV.

Your query also mentioned User Manuals. We were quite puzzled by this part of your query since our records did not show any supply of user manuals. Finally, we checked the issue with Crossbow Technology, and they confirmed that the User Manuals were listed on any related purchase orders, and have never been included with any VG700MB-201 shipments to Malat. (This is the reason for the long delay in our response.) Please find enclosed the letter from Crossbow Technology.

With my best and warm regards,

Sincerely,

Rami Yungman

Attention: Mr. Ido Shalit, Deputy Corporate Security Director

Reference: VG700MB-201 Contents of Shipment

Dear Mr. Shalit,

Crossbow Technology, Inc. (Crossbow) has been supplying the VG700MB-201 Dynamic Measurement Unit (P/N 8350-0281-01), and earlier versions of this product, to Israeli Aerospace Industries Malat Division (Malat) for many years.

We understand that there is some confusion with recent shipments because the US State Department export license (ref number 1001523) includes a line item for the User's Manual of this product.

Please note that the User's Manual is not called out on any related purchase orders, and has never been included with any

VG700MB-201 shipments to Malat.

Sincerely,

Phil A. Lees
